Memorandum

To: The Nobel Peace Prize

From: Dr. Marta Moreno Vega, President

Re: Letter of Recommendation

Date: January 29, 2010

This letter of endorsement is in support of Abdias do Nascimento as a recipient for the Nobel Peace Prize. His dedication to the African descendant communities of the world and specifically Brazil through his humanitarian efforts, cultural activism and art has forged a path for the civil and human rights of communities globally. He is dedicated to unifying cultural ties and humanitarian work between Africa and the world addressing the ravageous of enslavement while working on positive solutions to end racism, discrimination, civil and human rights violations. His love and respect for peaceful solutions while implementing caring practices to assure a better life for us all is to be honored and commended.

His life, his work is a model of dedication and commitment.

I highly recommend this pioneer for the Nobel Peace Prize.

Dr. Marta Moreno Vega
